## PROGRESSIVES IN OLD FASHIONED PICNIC PARTY

Monte Vista Park, Sunland, Scene of Big Gathering Of Glendale Folk

The Glendale Progressive Business club, with their families and friends to the number of seventy-five, enjoyed a regular old-fashioned picnic at Monte Vista Park, Sunland, on Sunday.

In line with the progressive spirit of the club, Herman Psenner and Henry Walsma left Glendale bright and early Sunday morning and took possession of the big round table at the park, and held it until the balance of the picnicers arrived about 10 o'clock, after meeting at the Broadway Pharmacy and staging an auto parade around the business section of Glendale before starting for the picnic grounds.

**Lots of Surprises**  
Instead of King Arthur presiding at the Round Table it was William B. Kelly, who was master of ceremonies and kept the day full of surprises. Speeches were made by William B. Kelly and George H. King, the rest were made by the picnicers. Games, including baseball and races, were enjoyed and all attending felt that the event was decidedly worth while.

Much of the success of the picnic can be credited to the entertainment committee of the club; George A. Whittaker, Herman Psenner and Henry Walsma. The regular weekly luncheon of the Progressive club has been changed to Wednesday noon of each week, and will be held at the White Inn.

## Two Aircraft Lead Real Estate Parade

L. C. Brand of North Glendale and L. D. Sale of Los Angeles left early this morning from the Brand aviation field for an aeroplane trip to San Francisco where they will attend the National Realtors' Convention, which is to be held there this week.

Mr. Brand, who is president of the Title Guaranty & Trust company, and Mr. Sale, president of the Western Wholesale Drug company of Los Angeles, will lead the party of men from this part of the state who are making the trip to San Francisco by automobile in Mr. Brand's two aeroplanes. Mr. Brand will fly in the larger aeroplane, the "Le Per" which is mahogany finished and has a 450 horse-power Liberty motor. The machine will be piloted by G. G. Ludwig, of this city, who was formerly aviation expert and instructor for the U. S. army. Mr. Sale will fly in Mr. Brand's smaller plane, the reliable "Mono Eagle," which has proved itself a very worthy and dependable plane. It will be piloted by Lieutenant Rummie of Rogers Airport.

Three hundred and fifty automobiles, to carry delegates from southern California, were waiting at the Ambassador hotel at 7 o'clock this morning for the two aeroplanes to fly over and give the signal to leave. The aeroplanes were to circle around and drop bombs as the starting signal. The party will stop at Fresno tonight.

## A. H. Lapham Calls At Masonic Dance

The dance given Saturday night at the Masonic Temple by Unity lodge No. 368, F. and A. The Paul Jones and the "broom dance," called off by A. H. Lapham, moved to be the special features of the evening. The dance was in charge of the entertainment committee; Dan F. Flynn, F. J. W. ## REV. C. R. NORTON GIVES MEMORIAL DAY SERMON

Speaker Tells Why People Should Pay Tribute to Nation's Dead

"Comrades and fellow citizens, here are exalted reasons for the observance of Decoration Day."

So exclaimed Rev. C. R. Norton of 801 East Wilson avenue, chaplain of the G. A. R., yesterday morning at the First Methodist church in his special Memorial Day sermon.

"Three hundred years ago our fathers felt the hand of oppression reaching heavily upon them. A ray of light streaming across the trackless deep revealed to them the possibility of a new home in the new world where they might worship God according to the dictates of their own conscience. They braved the dangers of the great ocean, breaking away from the associations of generations, landed upon the shores of the new continent with its wild waste spread out before them. They were possessed with a determination to form a new civilization which, under the blessing of heaven, they did.

**Contended for Right**  
"For more than 100 years our fathers contended for the right of self-government; until in a long and destructive war upon many a hotly contested field, they established the fact of their independence. And so we have our Fourth of July to commemorate the suffering, the courage, the wisdom and the victory of our ancestors."

"We revere the name of Washington, Jefferson, Franklin, Clay and hosts of others whose names and deeds are handed down to us. Equal honor is due to the saviors of our country."

"My countrymen, in our resources of every character. For our happy prosperous condition we are indebted to the boys who wore the blue, who suffered in prison pens, who died in hospitals and on fields of battle, and to those returned home to suffer and die from diseases contracted in that awful war. All honor to the

## 'Hatless' Hayward Did Not BUY Hat

Something in the nature of a correction must be printed regarding the report that E. P. (Hatless) Hayward bought a hat.

Fact is, he didn't. His father, E. W. W. Hayward was in Los Angeles with a sample line of straw. Sonny just walked in, grabbed a good-looking Kelly katty and didn't even say thanks.

It's an even bet that he ate the hat this morning soon after the realtor's caravan left Los Angeles, for he started from here without breakfast, according to Harry E. McCartney, his partner in the real estate business, at 142 South Brand boulevard.

Howard Fagan delivered a sermon in the morning to the greatest radioholic audience in America, it is said. He is pastor of the Wilshire boulevard Christian church.

## THEATRE SAFE IS ROBBED OF \$700; EXPERTS ON JOB, POLICE SAY

Glendale's Strongbox Broken Open; Many Valuables Left by Cracksmen

**S** EVEN hundred dollars in cash, the receipts for Saturday and Sunday, were stolen from the Glendale Theatre safe at 2 o'clock this morning by cracksmen who used sledge hammer and cold chisels on the combination knob of the strongbox.

Within five minutes from the time the robbers departed, the Glendale police were on the job. Captain Thomas McGuire and Patrolman LaRock answering the call of John Cuffee, house man, who has sleeping quarters under the stage.

It was the latter who heard a peculiar noise in the mid of night and, going to the front of the house, investigated. If the Pacific Electric was digging up its tracks on Brand boulevard, he noticed a light in Manager William A. Howe's private office on the second floor.

Cuffee then showed great bravery in walking into the box office, a literal trap, and phoning the police. Evidently his action scared the robbers, who made their exit the way they entered—over the roof.

Mr. and Mrs. Howe also were called and shortly before 3 o'clock an interested crowd gathered to see the result of one of the most expert jobs done in Southern California.

**Valuables Left**  
Only \$138 was left in the cash cylinder and the bags of money which Miss Lova Poole, the cashier, had carefully put away Saturday and Sunday nights were gone. Many other valuables, however, were strewn about the hall where

## Sees \$30,000 Ranch Slowly Disappear

Mr. and Mrs. William Raymond and Mrs. Kate Raymond of 714 South Glendale avenue recently entertained Mrs. William Shallenberger of Ripley, who has been stepping in Los Angeles since she was driven from her ranch home by the flood in the Ripley country. Her husband, who arrived Friday, has been pioneering in the valley for ten years, and has just had the terrible experience of watching his ranch, valued at \$30,000, gradually disappear under the slowly rising waters of the Colorado river.

Mr. and Mrs. Shallenberger once walked two miles through the flood waters, where it was impossible to drive, and at one time he had to swim where the water was twenty-five feet deep. This happened when the river left the channel in the river bed, and formed a new one in the irrigation ditch on their ranch. They later crossed it by boat.

The Shallenberger ranch was noted for being equipped with the most modern machinery. In the country, and he has seen his cotton crop, acres of garden, and farm machinery, including expensive tractors, harvesters, swaled up by the flood water. He made daily trips to the ranch by boat, and succeeded in saving his livestock, and everything of value from the house, which stands on high ground, but the entire ranch is now under water and all crops a total loss.

## Breed of Chickens Totally Deaf, Plan Of Eastern Resident

While the rooster stories each day indicate that the only remedy for their husky crowing is the axe, H. J. Windsor submits the following:  
"I heard of a party in the east who said he never had any trouble with noisy chickens, as he punctured the ear drums of the young chicks."  
"The result was a breed of deaf chickens, which having never heard a crow, would not recognize it even though they saw it."  
Have you a little rooster tale to tell?

## MORE MEDITATION COUNTRY'S NEED, IS CLAIMED

Don't Get Frustrated, Is Plea of Pastor In His Sermon on Sunday

"One of the greatest needs of modern times," stated Rev. Harry G. Preston yesterday morning at the Pacific Avenue Methodist church, "is to be called back to the fact that there is a kind of knowledge which can never be had except in stillness. This is the knowledge of God and the knowledge of self. God speaks to the human soul in the small, still voice and that voice cannot be heard in a crowd."

"It would seem that meditation is almost as important as prayer. In fact, they are very closely related. And yet how little meditation there is today! And how little we know about stillness today! The realm of silence, why, it is a foreign word to most of us."

"A young lady, who had been visiting the lake district of Scotland, said to me not long ago, 'It was so still up there that I became afraid.' She could hear her heart beat and she ran away."

"In countries where people are temperamentally calm and reflective it might not be necessary to insist on stillness as a condition of knowledge. But, in a country like ours where the com-

## Doran Street P.-T. A. Entertains at Picnic

The members of the Doran Street Parent-Teacher association, of which Mrs. A. H. Brown is president, were hostesses at a picnic given Saturday at Brookside park, Pasadena, attended by over 200 children and parents and teachers. Mrs. Florence Wintersgill was chairman of the committee in charge of arrangements. The party left the school in automobiles Saturday morning about 9:30 o'clock. A bountiful picnic lunch was enjoyed at the park. Especially pleasing to the children was the swimming pool at the park where a number of them spent the larger part of the day.

cial spirit is rampant, it is well-nigh impossible to get any appreciation for the calm and unruffled and retired spaces of life.

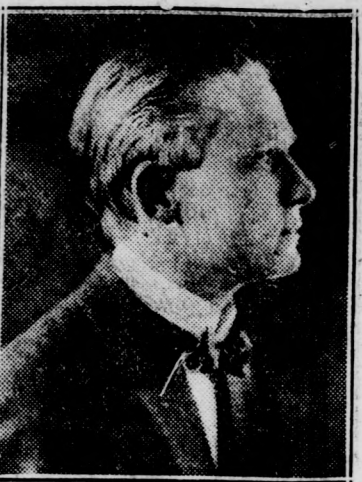

**Not Easily Flustered**  
"One thing I like about the Quakers is that they don't get easily flustered and they live longer for it. It would do us all good to turn Quakers for a little while at least. We talk so much and so fast that we don't give God a chance on the line at all."

"Over in Europe they speak of Americanitis. Americanitis is nervousness and its parents are hurry and worry."

"Nineteen hundred years ago the world's greatest teacher said to His little circle of followers: 'Come apart into a place of solitude away from the crowd and noise and let us rest awhile.'"

"This is the need of the hour today. Does not this restless activity of our day account in large measure for the shallowness which is so characteristic of the age?"

## Harry Nielsen to Give Concert on Tuesday, May 30

HARRY NIELSEN

A concert that is being looked forward to with much interest by the people of Eagle Rock, Glendale and vicinity is that to be given Tuesday night, May 30, at the Twentieth Century club, Eagle Rock, by Harry Nielsen, pianist, and Minnie Gazzalo Love, soprano.

Mr. Nielsen recently returned from New York, where he studied under two great masters, Frederic Dixon and Percy Granger, and is now residing in Eagle Rock. While in the east he gave concerts in some of the largest clubs and hotels, such as the Waldorf-Astoria and the Hotel Astor. His interpretation of the modern compositions, as well as the classics, was highly praised. The New York Times describes him as being an artist of unusual ability.

Miss Love has a lyric soprano voice, which is described by those who have heard her as being of splendid quality and beauty of expression, with range and purity of tone and an intelligent and sympathetic interpretation.

## Western Thriller Is Feature at T. D. & L.

Yesterday's audience at the T. D. & L. theatre became quickly absorbed in and thrilled by "Tracks," which is a cleverly developed and logically planned story of mystery and romance. It will be shown again today.

Along with the ranchers of the community, you become puzzled over a series of horse stealings. After every raid, a certain cow track is found in the vicinity. Then the villain is disclosed, and his efforts to place the blame on an innocent man and win the girl under false pretenses. Of course, you know the hero is going to win, because he is a Texas ranger, but the suspense is in not knowing how he is going to outwit that wily villain.

Harold Lloyd is also presented in his comedy, "Hit 'Em Again." Hear Alton play "Smilin' Through" on the organ.

**Tomorrow**  
Norma Talmadge in "Smilin' Through" will be the big feature attraction at the T. D. & L. tomorrow (Tuesday). "Smilin' Through" is declared the nation over to be the most wonderful cinema production ever produced—and Norma's supreme triumph.

James M. Rhoades, secretary of the Glendale Chamber of Commerce, was named vice president of the Association of Chamber of Commerce Secretaries in Southern California, at a meeting held Saturday and Sunday at the St. Catherine hotel, Avalon, Santa Catalina Island.

E. F. Sanders, assistant secretary of the Glendale organization, also attended the sessions, at which time new by-laws were adopted and a useful career begun by what was formerly a purely social association. Eight counties, from Santa Barbara to San Diego, are represented and hereafter one day and evening each month will be spent in developing a greater Southern California.

**Getting Publicity**  
According to the local secretaries, Glendale is accomplishing more than most of the cities and is getting a great deal of publicity on account of its growth and real building record. In "The Monthly Handshake," a Long Beach publication, the following comment is made:

"The little village over the hills is not far away." It has doubled its population in the past two years and now has more than 25,000 souls to its credit. Will Long Beach have to hedge about its "fastest growing" talk and hand it to Glendale? What do you say? Bedroom of Los Angeles? Oh, well! Don't knock! Walk right in."

Little boosts like that help a lot, comments Secretary Rhoades.

**City Manager Speaks**  
City Manager W. H. Reeve, talked on the topic of garbage after the Glendale Merchants' Association enjoyed lunch this noon, according to the program scheduled, which included a speech on the "trade at home" campaign by George H. Knapp, efficiency expert. Other routine matters were taken up by Secretary Frank H. Pilling.

## Interesting Program Is Given by Pupils

At the close of the program Miss Geiger played by request "Rigoletto" paraphrase (Liszt).

## Opposes Censorship, Halts Theatre Work

John Rommel of the Rommel Construction company with headquarters at 144-A South Brand boulevard has stopped work on the construction of the Eagle Rock theatre building and states: "If there is to be censorship in Eagle Rock, I will change my plans now and make an apartment house of the building. All I want is a safe investment and no theatre is able to survive where a local self-appointed board of review militates against the showing of regular pictures."

"I understand the T. D. & L. theatre circuit has lost heavily in Pasadena and that the beautiful Raymond now is closed principally because of interference by the censors there."

## J. A. Newton Store Family Will Picnic

The J. A. Newton Electric Company employees will picnic at Resonance Beach tomorrow, more than a dozen cars to leave the store at 154 South Brand boulevard at 8:30 a. m. It will be a regular family affair, each one of the twenty-five employees expecting to bring one or more along for the fun, which will include a baseball game between the shop and store men with Ole Andersen as umpire. He says he has nine lives and is going well protected with a straw hat, sandwiches, etc. The company will provide ice cream and other refreshments.

Numerous prizes have been hung up in the races, including events for men, women, girls and boys. Instead of potatoes or clothebins, electric plugs, etc., will be used in the contests. J. A. Newton personally will judge these events, with the exception of the bathing suit parade.

B. Chrisman and family of 451 West Dryden street have returned from a fifteen days' automobile trip to Sacramento, San Joaquin, St. Helena and Pacific Union College, where they attended the commencement exercises and the parents made arrangements for the daughter and son to enter the school next year. The return trip was made by way of San Francisco, where they stopped over ten days to attend the World Conference of Seventh-day Adventists. Other places visited on the return trip included the Big Trees and Santa Cruz, and from there by way of the coast route to Glendale.

## TAKE OUTING AT BEACH

S. L. Walker and Mrs. Walker who have been vacationing at their cottage in Hermosa Beach, since last Thursday, are expected to return to their home in 139 Arden avenue Wednesday morning. Mr. Walker, who is in the real estate business, has been looking forward to his vacation for some time, taking it earlier than usual in anticipation of being on the ground when the usual rush of business comes in his line about the middle of June.

In Japan, dresses are often sold by weight.

## RETURN FROM ISLAND

Mrs. A. R. Townsend, 8 North Brand boulevard, and daughter, Albert and Regis returned last night from a weekend trip to Catalina Island where they spent Saturday and Sunday. The weather was ideal for a boat trip to The Magic Isle and was enjoyed very much. The party stayed at the Saint Catherine hotel.

## Burglary and Automobile Insurance—

THERE were five houses ransacked in Glendale Saturday evening and they carried no burglary insurance. Today they are mourning the loss of many valuables and keepsakes. Today we insured two of them. Don't delay insuring yours, then, if you hear a burglar in the house, don't take a chance on losing your life; let him go, and tell us next day. We pay—and our rates are low.

## OUR AUTO INSURANCE DEPARTMENT

—is busy adjusting losses each Sunday. Sunday afternoon one of our risks called up from Van Nuys saying his machine was wrecked in a collision—he had full coverage. We will have it all fixed up for him before you read this. We assume all responsibility. And if we can't do it cheaper than any other company will do it, we don't want the business. Sounds fair, doesn't it? Give us an opportunity to prove it.

Lame every morning, achy and stiff all day, worse when it's damp or chilly? Suspect your kidneys and try the remedy your neighbors use.  
Mrs. H. E. McClenahan, 84 N. Vernon Ave., Pasadena, Calif., says: "I can hardly describe the misery I endured from backache. My back ached constantly and I could scarcely turn in bed. When I was running the sewing machine, pains caught me across my kidneys. I felt so tired I could hardly do anything. I had dizzy spells and spasms came before my eyes. I used four boxes of Doan's Kidney Pills and they cured me of the attack. The backache and all other symptoms left and I felt well again."

## COMMENT THAT'S ALL

Tribute of Grateful Hearts  
State Realtors Are Alive  
Preachers Like Chickens  
Athletes, Autos, Advertising

By Gil A. Cowan

IT IS fitting and right that we should with song, prayers, and with the choicest of earth's flowers keep alive the memory of those gone from the ranks of common soldiery. We should bring the tributes of grateful hearts to our country's altar in memory of our brothers departed in the righteous cause for which they gave up their lives.

Those are the words of the Rev. C. R. Norton, who delivered the Memorial day sermon yesterday at the First Methodist church to the fellow members of N. P. Banks Post, G. A. R.

The sentiment expressed in that paragraph will live long after everlasting peace has been obtained, whenever that is to be. For it sums all that patriotism and sacrifice and service means.

No waving flags, no pensions or no pay can answer the purpose of a true patriot. On the other hand the tribute of grateful hearts, be it in reverent memory, the sweet songs or beautiful flowers, means more than words can tell.

Memorial day is deeper in patriotism than either Fourth of July or Armistice day. In reality, the latter are only the perpetuation of celebration of victory. And so tomorrow the nation will reverently pay its respect to the hero dead.

California this week is host to the National Real Estate convention.

Several Glendale realtors went forth this morning with the "End of the Trail Caravan," one of the greatest demonstrations of its kind ever seen.

All of which shows that the state is well organized and the California Real Estate association and the local boards are alive to opportunity.

In issuing a 116-page convention number of California Real Estate, the managing director who also edits the magazine, has achieved a wonderful success. As an advertising medium and trade journal it is one of the biggest propositions ever put forth.

The Rev. Harley G. Preston tells this chicken story, which not being local, will do very well for Comment.

"A poor pastor, blessed with false teeth, sat fishing from a pier.

"In the excitement of catching a fish, he dropped his teeth in the water.

"Bemoaning the fact that he could not eat the fish until he got some teeth and he had not the money to buy them, he told a stranger nearby of his plight.

"You want to put some real bait on the grapping hook," said the stranger, who handed him a piece of fried chicken.

"The teeth came dashing through the water for fifty feet to grab onto that chicken," concluded the pastor.

Then Mrs. Preston propounded this conundrum: "Why are chickens' necks like doorbells." The answer, she says, is "Because both are rung for preachers."

"I remember a rooster," said Rev. Mr. Preston, "that used to go through all of the motions of crowing, but didn't make the usual noise.

However, it did awaken the North Carolina house hold in which I stayed, because it stood on a woodpile under the house and its flapping wings knocked against the wood at 4 o'clock a. m."

There are people in Glendale who heartily wish that more roosters had similar throat trouble.

It is a real pleasure to note in the dispatches of the last two days that four California high schools' athletes rolled up high records in the interscholastic contests at Chicago Saturday. There is no reason under the sun why this isn't the best.

And to think that Glendale has no athletic club, no swimming pool as yet (although it is being built) and no playgrounds, other than those the public schools afford.

Well, let us be thankful that Glendale does have the schools and that their equipment is available to the public to a large extent.

In the current issue of Touring Topics, the official organ of the Automobile Club of Southern California, a picture is printed of one of the smashups in the road race here some eight or ten years ago. The comment with the illustration reads:

"They used rough and ready methods in the road races such as that at Glendale when they piled bales of hay against the telegraph poles on the turns to prevent damage—and it worked."

Remember that race? Sure and excited by the many thrills that hardly anyone knew who won until The Glendale Evening News announced the results.

As a business barometer, The Glendale Evening News' files provide local information that is almost startling.

Advertising this year is just ten times greater than it was in a comparative period five years ago. Can you imagine the difference between five and six columns of paid matter in a publication as compared with fifty or sixty?

That is the Glendale Evening News' record. It gave this city a daily paper when others wondered how it was done. That is one reason why it gets the business today.

**JACK PICKFORD TO WED?**  
BOSTON, May 29.—Marilyn Miller, musical comedy star, shortly will become the wife of Jack Pickford, movie actor, it was reported here. Friends of Miss Miller said it was "all arranged."

## 'Cappy Ricks,' Real Broadway Hit, Playing At Chautauqua Tonight

The mere announcement of the play—and the players—should in itself be sufficient to insure a capacity audience when Chautauqua brings "Cappy Ricks" to town. This greatest of all American comedies will be presented tonight by the Percival Vivian Players of New York. "Cappy Ricks" was dramatized by Edward E. Rose from Peter B. Kyne's famous Saturday Evening Post series of the same name. It was first presented by Oliver Morosco at the Morosco Theatre in New York, where it ran a solid year. A five months' run followed at the Cort Theatre, Chicago. The play was stamped as a Broadway success from its very first appearance, for it is distinctively American, with a laugh or two every moment.

A fascinatingly original program will be opened at the Chautauqua this afternoon at 3:30 o'clock by the dainty Watteau girls, in quaint costumes of the Seventeenth century court ladies. These merry, musical maids entertain with a program in which clean, wholesome fun will predominate. These midlets, Anna Famo Harrell and Boyce Baker, are particularly gifted along dramatic and musical lines.

The popular American comedy, "Cappy Ricks" by Peter B. Kyne, will be the play to be presented at 8 o'clock tonight by the Percival Vivian players. A laugh every minute is promised in the presentation of this play, which first ran as a serial story in the Saturday Evening Post.

Enthusiastic crowds attended the performance Friday night and greeted with applause the splendid work of Frances Ingram, the American contralto, who proved herself a star of the first magnitude. In the afternoon, the Stearns-Hellekson trio executed a novel act that pleased, while the lecture demonstration of Edna Eugenia Lowe had many attentive listeners.

The Patton Brothers were seen Saturday afternoon in a "different" program. The three brothers, always full of "pep" and their program all written in musical form, consisted of especial costumed episodes. The act was featured by artistic work, lacking only in the cheap "jazz" element so common in entertainment nowadays.

At night, a man with broad vision of world's problems, in the person of Norman Allan Imrie, delivered his talk on "Working Together for Billions." Mr. Imrie has had years of personal contact with life in England, Canada, Central Europe, New Zealand and the United States which qualifies him to talk with authority on his subject. The Patton Brothers also were seen in action as a prelude to the evening's program.

The performance Sunday afternoon featured the famous Oceanic Quartet which has had a wonderful success in various countries where it has appeared. And Opie Read, one of the headlines on the Chautauqua circuit, lectured on "Human Nature and Politics." This talk is billed as "An hour with America's Kindest Philosopher."

There was no night performance of the Chautauqua, it being agreed that nothing be done to interfere with church services. The afternoon opened with the Oceanic Quartet and it made a great hit, the five young men being unusually pleasing, giving music, songs and "chatter." The "Old Town Hall" was a riot and good enough for any stage.

Opie Read, of course, delivered a lecture full of "meat" and his quaint stories met with a hearty reception. His philosophy is rich in humor, every story has a moral, yet there is nothing "preachy" about his lecture.

The quartet and Mr. Read combined made one of the best programs yet given at the Chautauqua, many declared.

## SCIENCE, RELIGION SIDE BY SIDE, PASTOR SAYS

But Truth Must Prevail In Each, Declared by Rev. Calderwood

"The matter of past evolution is beyond debate," asserted Rev. C. M. Calderwood yesterday morning in the L. O. O. F. hall at the services of the Congregational church.

"God has told his story of inorganic and organic evolution in the rocks. The world and the life of the world has changed during the millions of years that the world has existed."

"God created and He still creates. This is a developing world. God has told His story of human evolution in the history of mankind. Human life has not always been what it is."

"We are different beings from our savage and heathen ancestors. I prefer to believe that I have developed from my distant ancestry than to believe that I am no further along in human development than my progenitors of 100,000 years ago."

Religion and Science  
"Science has disclosed much of God's truth to us. Scientific truth is as much God's truth, so long as it is truth, as is any other truth. We should as much beware of the religious man who divorces scientific truth from his teaching as of the scientific man who divorces religious truth from his teaching. We must see both groups of truth side by side and as they are related the one to the other."

"God's evolutionary processes are not yet completed. God still lives, and if He lives He is still active in creation. The world and all its varied life as well as human life have not yet reached perfection. We do not want to give up hope of something better. Our hope is in God's processes."

"God has not wrought His changes by means of cataclysms, but by orderly processes. He has sent His spirit into man. Man became great when He breathed His life into man's nostrils. We shall become greater as we utilize more of the divine resources."

**W. C. T. U. Expresses Thanks to The News**

Dear Sir: In behalf of the members of the Women's Christian Temperance Union I wish to thank the Glendale Evening News for the manner in which the state convention news was presented and also for publicity given. It was the best we have ever had and the women were loud in their praises for the Glendale Evening News.

MRS. MARIE M. YEOMAN,  
Publicity Chairman of the Women's Christian Temperance Union.

## DR. FUNK STATES HIS VIEWS UPON PATRIOTISM

One Frequently Gets False Notions of Heroism, So Minister Declares

"Christian Patriotism" was the subject of Dr. H. C. Funk's morning sermon yesterday at the First Lutheran church.

"The only kind of patriotic currency that is worth its face value in this world and in the one to come is Christian patriotism," he remarked.

"The religious element in patriotism, as in every other noble sentiment, is paramount."

"Christian patriotism means more loyalty to one's own country. It means more than shouting oneself hoarse at a political rally or a Fourth of July celebration."

"Christianity knows no north or south, east or west. It brings all the nations of the earth into one common brotherhood and knows only that which is right. An association of nations founded upon this platform alone will endure."

**Form False Notions**  
"The fact is, in estimating our hero we frequently form false notions of heroism. Our young men and women seem to think that true heroism means bloody war. Yet how many of these young soldiers make a miserable failure in camp life and at home?"

"No, there is a harder and higher heroism than that indicated by brass buttons and the uniform of an officer. To live well in the quiet routine of life; to accept a low position without murmuring; to smile for the joy of others while your own heart is aching; and to do these things for a lifetime because of a greater heroism than he who storms a breach or rushes to the front under a rain of shot and shell for he is one of God's heroes."

**WARNS ABOUT DANGER**  
LONDON, May 29.—"Britain and the rest of the world are not yet out of danger," warned Premier Lloyd George today in a speech at a parliamentary lunch in his honor.

"We have perils near our coasts—in our own islands. So long as there are common perils let us stand together."

The premier pointed out that Great Britain mobilized 9,500,000 men for fighting in war time and therefore has a right to determine the character of the peace.

**GRAFT INQUIRY BLOCKED**  
WASHINGTON, May 29.—The Woodruff-Johnson resolution for a war graft investigation was blocked again in the house by Speaker Gillett. A North Carolina election contest was before the house and Gillett ruled such cases were of higher privilege and could not be displaced. Representative Johnson, Republican, South Dakota, one of the authors of the resolution, sought recognition to call up the measure, but the speaker refused to let him have the floor.

## SHORT LINE ROADS FAIL TO SUCCEED, EXPERT SAYS

C. D. Gulick Says Systems Are Founded for All but Dividend Paying

"To bolster up a broken-down, obsolete business of any kind must be considered poor business from the standpoint of business men," remarked C. D. Gulick, municipal transportation expert, recently.

"It has been a well known fact beyond reasonable doubt that the electric and steam short line railroads of California as well as in other states are not and have not been a success as an economic means of transportation."

"There are very few, if any, such transportation companies having been installed for profitable operation in the United States. They were not installed with the expectation of earnings from the operation of service itself. On the other hand, they were largely installed to aid the owners to develop cheap and sparsely settled tracts of land, thereby increasing the land values, and for the purpose of stock-selling schemes with the view of injecting into the stock all of the water that the traffic would bear."

"From what experience and knowledge I have been able to glean, there must be only one conclusion—the railroads have been founded for almost every other purpose except to pay dividends from their earnings."

"All the companies, by their present status and financial conditions, are sufficient proof that few, if any, have paid dividends, particularly during the last ten years. It therefore appears that there positively is no hope that these companies can or will pay dividends to the stockholders."

"The companies are compelled, because of unavoidable circumstances, to charge such rates as are beyond the reach of the average users."

"The shortline railways of the United States are and have been absolute failures, with few exceptions. Motorized transportation positively can and will give the desired results."

## "FLU" LEAVES PATIENT WEAK AND NERVELESS

Regains Strength After Almost Giving Up Hopes of Recovery

Spanish Influenza or "Flu" as this dread disease is now generally called, almost invariably leaves the sufferer weak, nervous, discouraged and depressed. As a matter of fact, some people never fully recover from the effects of "Flu" simply because they do not know there are remedies that will bring back their health and strength.

In a letter, Mrs. Jonas Myers, R. F. D. No. 1, Kelly's Station, Pa., tells how she counteracted the effects of a severe

attack of "Flu" after trying various remedies. She says:

"I never took any medicine that did me so much good as Dr. A. W. Chase's Tonic Pills. I had the 'Flu' and after I got over it, I was so weak and nervous, I could hardly get around. I tried different medicines but was no better when I quit using them than before I started. A friend sent me one of your booklets and I read of Dr. A. W. Chase's medicines. I may say that I had given up all hope of ever getting better, but three

boxes of Dr. A. W. Chase's Tonic Pills made me feel like a new person. I feel now as if life was worth living once more, and am recommending Dr. A. W. Chase's medicines to everyone I know."

You can buy Dr. A. W. Chase's remedies at all drug stores. To be sure of getting the genuine, see that the portrait and signature of A. W. Chase, M. D., are on each box. This trade mark is your protection against imitations. —Advertisement.

OSSINING, N. Y., May 29.—For the first time in years, famous old Sing Sing has not sufficient accommodations for its "guests." The recent crime wave sent so many new boarders to Sing Sing that Warden Lawes has had to appeal to the state superintendent of prisons for relief. Sing Sing has accommodations for 1,200 prisoners. They have been arriving at the rate of ten a day for several weeks and today there were 1,216 in the famous prison.

CHICAGO, May 29.—Eugene Bryant, held as the "brains" of a national ring of blackmailers and extortionists, has confessed, the police said, that he had sent "poison pen" letters to John R. Thompson, Charles Weeghan and at least three other well known restaurant and cafeteria men. Bryant was decoyed and arrested following an attempt to blackmail Mrs. A. H. Shotwell, wife of a millionaire confectioner.

## WEST'S ATHLETES PROVES WORTH IN TRACK MEET

Three Intercollegiate Marks  
Raised in Proceedings  
On Harvard Oval

By DAVIS J. WALSH  
Sporting Editor International News,  
CAMBRIDGE, May 29.—The  
University of California produced  
a landslide of athletic talent in  
the field on the Harvard oval last  
Saturday and in consequence won  
the annual intercollegiate track  
and field title with a generous to-  
tal of 40 1/2 points.

Led by such men as Muller,  
Meroney, Norris, with Ber-  
key, Witter and others falling in,  
the Bears scored all of 35 1/2 points  
without setting a spike on the  
track, the remarkable Merchant  
alone accounting for 13 points.

In the non-steeplechase off-  
ing followed Princeton with 31  
points, Leland Stanford with 26  
1/2, Cornell with 21 1/2, Penn  
with 16, and Harvard 14. The  
rest were strung out like a sail-  
or's anecdote.

Three intercollegiate records  
fell during the general excitement,  
these being furnished by Mer-  
chant, who slung the hammer 171  
feet 2 inches on the first day of  
the games, and by Al Leconey, of  
Lafayette, and Leroy Brown of  
Dartmouth on Saturday.

**New Record for 100 Yards**  
Leconey bettered the game's  
record for the 100 yards, held  
jointly by Bernie Webers, Sr., and  
Jimmy Patterson, when he  
brushed through the tape in 7-10  
seconds, leading his field by a  
lengthening yard.

Leconey, however, had a stiff  
wind blowing up on his straining  
back and hence his performance  
may not be officially esteemed.

Brown's record, however, was  
as legitimate as a certified check.  
Unaided by either wind or chance,  
he leaped 6 feet 4 1/2 inches in the  
air in his high jump and thereon  
Alma Richard's old record passed  
out by precisely one-eighth of an  
inch.

A record crowd of 20,000  
viewed the festivities, according  
to their respective fancies. A  
group of California gamblers  
inocently in one corner of the  
big concrete stadium, laying par-  
ticular stress upon the names of  
Brick Muller and Johnny Mer-  
chant. The latter was the high in-  
termediate scoring with 13 points.

Allen Woodring of Syracuse, all  
season high jumper, at the 220-  
yard world's record, broke down  
after finishing sixth in a field of  
six that started in the century and  
failed to go to the mark over the  
longer distance. C. R. McKim of  
Princeton also pulled up lame  
after running some ten yards in  
the latter race.

**Cowpuncher Isn't  
Bad As Pictured,  
Says O. S. Holliday**

"The cowpuncher, even of to-  
day, is not the bad man he is  
pictured on the screen or in the  
book," was the comment made  
recently by O. S. Holliday, for-  
merly of Livingston, Mont., who  
has taken up his home here and  
who "punched" cows for many  
years on the Montana ranges.  
"Forty years ago when I went  
into Montana with my father af-  
ter a hard trip by stage coach, we  
found then a type of men who  
were men of the plains and moun-  
tains and took a fellow at his  
word. In fact, there was no other  
law in those days but a man's  
word and in but a few instances  
it was always reliable. There was  
no dishonesty nor even a thought  
of it. It was customary for a  
cowpuncher to take his cattle over  
the range and be gone for days at  
a time.

"When noon came and he hap-  
pened near a cabin, he would take  
possession, prepare his meal, feed  
his horse and go on his way. The  
cabins never were closed and  
everybody was welcome. It's hard  
to believe today that a man could  
leave his home open and return  
to find everything intact. But  
that is the way it was and he  
doing it today, in most parts of  
the country.

"I have had three operations  
after falls, but each of them helped  
me fight harder for my place in  
life and now I can hire men to do  
the work I did."

Mr. Holliday, who has opened  
an office in 492 East Broadway,  
likes Glendale and, with his wife,  
makes his home here.

**BOMB PLOT IS FAILURE**  
HAVANA, May 29.—An un-  
successful attempt was made here  
early today to blow up the Span-  
ish legation with a bomb. The  
bomb exploded in the back part  
of the legation building, causing  
only slight damage. Senor  
Mariategui, the minister and his  
wife, were absent when the explo-  
sion occurred. The police are un-  
able to account for the attempt  
said to be the first of its kind ever  
attempted on foreign government  
property in Havana. A rigid in-  
vestigation is under way.

## The WORLD OVER

By FRANKLIN B. MORSE  
PACIFIC SPORTS SERVICE

Already a lot of the fight bugs  
are beginning to worry for fear  
that Jack Dempsey will insist on  
wearing that monocle of his into  
his next ring battle. Years ago  
there used to be a chimpanzee in  
Central Park, New York, that  
liked to be allowed to wear a  
monocle.

After reading about the petty  
and childish action of Babe Lan-  
dis who threw dirt in Umpire Hil-  
brand's race, because a decision  
of the official displeased him, a  
fan remarked: "Oh, well, you  
can't make a silk purse out of a  
sow's ear." What with his action  
last year that forced Judge Lan-  
dis to bar him from the game, and  
his present peevishness, Ruth  
rapidly is disintegrating the ped-  
estal on which he has been stand-  
ing.

The fact that all of the Ameri-  
can golfers were eliminated in the  
earlier rounds of the British Na-  
tional Amateur championship at  
Prestwick did not occasion the  
slightest surprise as this condi-  
tion was figured as a certainty.  
It is generally hoped that some  
of the best of the English golfers  
will come to this country to play,  
and the chances seem to be in  
favor of this materializing.

## SPORTS CHATTER

By BILL UNMACK  
PACIFIC SPORTS SERVICE

Foreign boxers have not been  
a success on their various in-  
vasions of this country. In their  
own countries they have gained  
phenomenal reputations and these  
reputations have preceded them  
to this country. They have been  
matched with American boxers of  
their class, but very few of them  
have passed the acid test. They  
were held as invincible in their  
own country, but when put in the  
ring in this country they more or  
less turned out to be false alarms.

At the present time the South  
American Firpo is boxing in the  
east. He has met several of the  
tenth raters and has won easily  
enough, but he has yet to meet  
some of the better class of heavy-  
weights, such as Brennan, Bob  
Martin, Fulton and others. None  
of them are in the class of Jack  
Dempsey, and even a match with  
the ones mentioned would not  
promote much in so far as their  
ability for a match with Dempsey  
is concerned.

Talking of boxers who have  
come here with reputations from  
their own countries, we all re-  
member the much touted Bill  
Squires who, in 1906, came here  
with a great flourish of trumpets  
only to take the count in a punch  
at the hands of Tommy Burns.

England has sent many so-  
called champions to this country.  
One of the best and a genuine  
champion was Jimmy Wilde and  
though Pete Herman beat him in  
England you can't take it from  
Wilde that he was the class. An-  
other Englishman who made good  
in this country was Jim Driscoll.  
In 1909 Driscoll put up a great  
battle with the then famous Abe  
Attell. The pair fought a phe-  
nomenal no-decision bout in New  
York Feb. 19, 1909, after the  
Englishman had beaten all Ameri-  
can boxers of his weight and had  
to go out of his class for matches.  
He won a twelve-round decision  
from Matt Baldwin, knocked out  
Charlie Griffin and made Leach  
Cross and Johnny Marto look like  
dubs.

Owen Moran was an English  
boxer who made good and he is  
the only man who put the great  
Battling Nelson down for the  
count. Freddy Welsh and Ted  
Lewis won their world titles de-  
feating Americans. Matt Wells  
at the time he was at his best,  
made good in this country. He  
beat K. O. Brown, and had no  
trouble in defeating Abe Attell,  
though at the time Abe was on  
the road downward.

In the old days England had  
good heavies and Bombardier  
Wells was one that failed to sus-  
tain his reputation of his prede-  
cessors. He, like Squires, was in  
the lemon class in this country  
when Al Palzer put it on him in

**Bebe Daniels Film  
Shows at Glendale**

"Nancy From Nowhere" is the  
latest picture done by the irre-  
pressible Bebe Daniels. You can  
see it for a week at the Glendale Theatre,  
where it opened last night.  
It is only fair to say that it is a  
different Bebe from the "good lit-  
tle bad girl" of many of her previ-  
ous pictures. She's a wistful, shy  
and pathetic little bit of humanity,  
this orphaned Nancy, and her por-  
trayal by Miss Daniels marks a  
ripening of her art, a step for-  
ward into the bigger things of  
photodrama.

But hold! your old friend Bebe  
is there, with her unailing  
sense of humor, her ability to  
wear smart clothes smartly, and  
her little "come-hither" smile.

News, topics and chats complete  
the film program.

Even to the point of paying the  
lunch check for a young man who  
had "left his money in the other  
suit," Rosie Cooper, cashier in a  
New York ham-and-egg parlor,  
followed the advice given her by  
the society woman "Show kindness  
toward all and good luck will  
come to you." Rosie was some  
flapper! Gladys Walton imperi-  
sonates her in the Universal spe-  
cial attraction, "The Wise Kid,"  
which comes to the Glendale  
Theatre Tuesday.

When huge sums are offered by  
one professional athlete to meet  
another one, we often wonder just  
how much of the sum mentioned  
the said athlete is risking out of  
his own pocket. Stanislaus Zbysz-  
ko will give a mere matter of  
\$20,000 for a finish match with  
Strangler Ed Lewis. Wonder if  
that amount should not have  
read \$20?

The tenth annual 500-mile  
sweepstakes will be held at the  
Indianapolis motor speedway on  
May 30. The usual crowd will be  
present.

The New York National League  
baseball club has been slowly  
coming back to earth during the  
last ten days or so, their per-  
centage having dropped nearly 100  
points. From a runaway, the  
race in that league has developed  
into a real thing. The American  
league is staging a race that, at  
this time, is quite as good as the  
show being put on by the rival  
league.

As far as we can remember,  
Jack Dempsey is the first cham-  
pion pugilist who has resorted to  
a monocle in order to get his name  
into the newspapers. Just now  
the monocle is getting more space  
than the Genoa conference of the  
nations.

**Tagging All Bases**  
Roger Hornshy stepped blithe-  
ly into the lead among the major  
league home run hitters by cull-  
ing a pair of them from the de-  
liveries of three Pirate pitchers,  
bringing his season's total up to  
thirteen. These, with McHenry's  
homer, accounted for the Cardi-  
nals' four runs and sent Pitts-  
burgh on its way with the short  
end of the series.

The Yankees once again fell be-  
fore the mastery of Walter John-  
son, who held them to seven hits  
in ten innings. The Senators  
came from behind and tied the  
score in the eighth and won in  
the tenth when Judge's single was  
followed by Brower's double.  
Judge also hit a homer in the  
eighth, tying the score.

The Browns, with Gerber pull-  
ing acrobatic stops afield, gave  
Danforth sensational support, and  
in consequence won the final  
game of the series with the White  
Sox.

## Portland Club to Discuss Landis Act

PORTLAND, Ore., May 29.—  
Stockholders of the Portland base-  
ball club will hold a meeting to-  
day to decide what action to take  
as a result of the drastic ruling  
of Judge Kenesaw M. Landis,  
baseball's high commissioner, who  
has attempted to bar William H.  
Klepper, president of the Portland  
club for two and a half years and  
James R. Brewster, club vice-pres-  
ident, for one and a half years and  
who has continued William J.  
Kenworthy, the Portland mana-  
ger, on the ineligible list until the  
beginning of the 1924 season. The  
Pacific Coast league, which is  
awarded Kenworthy's contract,  
will be able to dispose of Ken-  
worthy's services outside the  
league after August 1 of this year.

Marty Krug, former Portland  
second baseman, who was traded  
to Seattle for Kenworthy, pro-  
vided the latter should be allowed  
to play with Portland, is declared  
by Landis to be the property of  
Seattle.

Klepper has petitioned the pres-  
idents of the other league clubs  
for a meeting to be held Friday in  
Portland for the purpose of dis-  
cussing the case.

Stockholders of the Portland  
club, at their meeting today, are  
expected to decide to carry the  
case to the courts. They contend  
that while Judge Landis has  
power over Kenworthy as a play-  
er, he has no control over Klepper  
and Brewster.

## Penn Crew Captures Eight-Oared Contest

PHILADELPHIA, May 29.—In  
the American Henley here Satur-  
day afternoon, Pennsylvania cap-  
tured the race for 150-pound  
eight-oared shells over a course of  
one and one-sixteenth miles,  
Princeton being second, two  
lengths behind the Penn crew.  
Yale was third.

Penn took the lead from the  
first. At the end of the half mile  
the Penn oarsmen had put one  
length behind them and the Tiger  
crew, which stretched to twice  
that distance at the finish. The  
time was 6 minutes, 4 2-5 seconds.

## Back & Forth AND Sometimes Fifth

By MACQUE

"Baseball is a funny game."  
Remarked old Simon Pope;  
"The funniest thing about it is  
We never know the dope."

"A team will win from day to day  
Causing the expert to musing.  
But as soon as you wager a dollar  
or two  
The darned bunch starts to  
losing."

"It's the same thing in horse  
racing.  
And most every other sport,  
too;  
Just place your bet on the under  
dog  
And you're sure to 'cop the  
glue!"

Just as the baseball authorities  
have been convinced that "Invin-  
cibles" have the squad that can-  
not possibly be beaten out for the  
pennant, along come the lowly  
"Misfits" with a sudden burst of  
speed that lands them in first  
place. The guy who said, "There  
is no such thing as luck" certainly  
wasn't a baseball fan.

A wonderful man is Valentino.  
In the movies he certainly acts  
"keeno."

Mr. and Mrs. M. W. P. Wright, wealthy Moorpark residents, were visitors yesterday at the home of the Rev. and Mrs. Harley G. Preston, 215 South Pacific avenue.

Miss Dorothy Patterson of 111 East Maple avenue and Miss Wilma Krukow of Glendale enjoyed a pleasant day yesterday at Redondo Beach with a party of Los Angeles friends.

The Rev. C. A. Clutter, pastor of the Spanish Methodist Episcopal church of Albuquerque, N. M., is visiting at the home of his brother, William Clutter, 349 Hawthorne street.

Eustace Rowley of 334 West Vine street was a member of a party of local young people who left Friday afternoon for a four days' outing in the Big Tujunga canyon. He expects to return to Glendale Tuesday night.

Miss Margaret Crawford, Miss Alice Holmes, Mr. and Mrs. Denney, Eustace Rowley, Roy Solover and Donald Cowlin left Saturday evening for a week-end fishing trip in the Big Tujunga. They will return tomorrow night.

The members of the Women's Relief Corps, G. A. R., of which Mrs. C. Kretschmer is president, are planning to hold a bazaar at the Masonic Temple on Saturday, June 3, with a chicken dinner at 5:30 o'clock.

Dr. and Mrs. D. R. Paine of Topeka, Kansas, who are attending the Western Optometrical Congress in Los Angeles, are guests for the week of Mr. and Mrs. R. A. Richards of 625 East Chestnut street.

Mr. and Mrs. Eugene Fairfield and their niece, Miss Florence Fairfield, of St. Louis, were in Glendale Sunday visiting with friends and relatives. The visitors are enjoying a two months' vacation with friends in Los Angeles.

Mr. and Mrs. Eugene Baldwin of West Salem street were the dinner guests on Saturday evening at the home of Mr. and Mrs. H. A. Kresling of 625 East Elk avenue. The two families have been friends for a number of years, they having formerly been neighbors in Los Angeles.

Miss Elizabeth Davis of Los Angeles has been the house guest since last Friday of her cousins, Mr. and Mrs. Robert D. Jones of 322 East Dryden street. Other guests entertained at their home were Rev. and Mrs. E. O. Thayer of Del Rosa, who motored over for the week-end to attend the dedication services at the Casa Verdugo church.

The members of the local Minnesota society are planning a picnic and program to be held at Brookside Park, Pasadena, on Saturday, June 3, from 4 until 7 p. m. All who claim the title of "Gophers" by reason of residence or birth in Minnesota have been invited to attend, bringing lunch, cups and spoons, and also their friends.

A party of high school young people attended an informal dance given by the Alumni of the Owl and Key Fraternity of Occidental college last Friday night. The dance was given at the Annadale Country club. Those who enjoyed the affair were: Charlotte Winfield, Margaret Morgan, Helen Vredenburg, Harold Sprague, Wilfred Cline and Johnny Richardson.

Mr. and Mrs. Frank Sauer of Hillcrest Drive, Los Angeles, were visitors Saturday at the home of Mr. and Mrs. Jack Lundroga of 108 East Maple street. Mr. and Mrs. Sauer were residents of Glendale many years ago, when they owned a shoe store on Glendale avenue, near Broadway. They sold this property and left the city ten years ago. They are very much surprised and interested at the growth of what was only a village when it was their home town.

Police of Southland Seek  
Clew to Cracksmen  
Who Got \$700

(Continued from Page 1)  
The safe had been dragged from its place in the manager's office. The rich velvet hangings of the theatre lobby, the oriental rugs, chair cushions, etc., were torn from their places to have been ended the sound if the cracksmen had been forced to resort to nitroglycerin. As it was they left in such a hurry that their sledge hammer, cold chisels and finger marks were left for the detectives to investigate.

Mr. and Mrs. Howe were high in their praise for the local police department which immediately dispatched two men to the scene and notified Los Angeles, Pasadena, Eagle Rock, Burbank and Hollywood police stations to be on the lookout for the criminals.

**Save Fingerprints**  
This morning Pasadena officers are taking photographs of the fingerprints, although it is believed one of the men wore gloves. Two or three were in the party, as one could not have negotiated the removal of the safe.

Beyond a reasonable doubt, the robbers made their getaway in a motor car which was hidden somewhere in the vicinity of Maryland and Harvard streets. Access to the roof of the Glendale theatre was easily gained by the use of a 20-foot extension ladder from the roof of the Goodno building, adjoining on the south.

**Bank Your Money!**  
Al Cawood, house manager, has informed Manager Howe that he noticed two suspicious men giving the theatre a good "once over" last night and the police are prone to believe it is the same band that made such good hauls at the Palms Royal and other Los Angeles cafes.

It is known that a theatre safe cracking gang works out of Kansas City and it may be members of that crime school who have come to the coast since the summer rates went into effect. Merchants and others should make arrangements to bank their money Saturday night if the banks will co-operate in the matter.

**Some Other Robberies**  
**Are Reported to Police**

A number of other robberies were reported over the week-end also and local police officials have been quite busy. It is believed by Col. J. D. Fraser, chief of police, that the burglaries are the work of amateurs and that before long they will be under arrest. While Mr. and Mrs. A. G. Larson were at the Chautauqua Saturday night, their home at 1231 South Orange street was entered through a side window. This is believed to have been flimmed with a screwdriver. When they returned at 10:10 the front door was open and small footprints were visible in the front of the premises.

A thorough search had been made of the interior of the house. Practically everything of value, outside of clothing, was stolen. The loot included a quantity of sterling silver, a diamond ring, a watch, a pair of diamond earrings, an opal ring, and other articles of jewelry were stolen. A hundred dollars' worth of war savings stamps were taken also.

Personal papers, which would be of no value to anyone except the owner, were removed. Mrs. Larson stated this morning that she would be very glad to forget the jewelry if the papers were returned. She asserted that these papers could have no possible value to anyone except members of her family.

The home of Mrs. Eva F. Sheldon at 1253 South Central avenue was reported the same evening. Also, the home of A. J. Blunkett at 219 Magnolia avenue. At 11:30 "Capt." Thomas McGuire reported that the Lee home at 215 Magnolia avenue had been entered through a side window during the family's absence.

A phone call was received at the police department at 1:15 a. m. Saturday night from Mrs. Charles E. McNary. She reported that a man had been seen trying the windows. Officers I. F. LaRock and George Booth went to her home at 351 West Doran street to investigate but could find no one.

A "hurry up call" was received at 8:25 by the local police department from Los Feliz Road and the Southern Pacific tracks. A collision had occurred between cars driven by A. J. Appleton of 1307 Myra avenue, Hollywood, and William G. Hanson, general manager of the Nick Harris Detective Agency.

A shot was fired into the air about 4 o'clock in the morning by Officer J. Seddon in an effort to scare a car into stopping on South Verdugo Road. Instead of stopping, the car got excited and sped the faster. Officers George Booth and I. F. LaRock immediately gave chase and pursued the car to the Broadway bridge, Los Angeles. H. P. Blackstock, C. L. Raycroft and a bottle of "jackass evidence" were brought back to Glendale. The two young women in the party were released. Mr. Appleton and Mr. Blackstock this morning were tried by Judge F. H. Lowe on charges of reckless driving.

Modern Woodmen's Nine Is  
Walloped by Merchants  
In Peppery Contest

By O. U. FOWL  
The Modern Woodmen's nine from Pasadena went down to defeat yesterday when the Glendale Merchants won 12 to 9, after overrunning a four-run lead. The visitors staged a rally in the ninth, but Kearns was master of the situation at all times. The playing of Acosta and Bell were lustily cheered by the fans, as were the hitting of Kearns and base running by Cobb. Cummings also started at the bat.

**Hist! Here's Secret!**  
**Babe Ruth Blocked!**

By DAVIS J. WALSH  
Sporting Editor International News  
NEW YORK, May 29.—The pitchers have discovered Babe Ruth's "groove."

That, if you care to listen to the man in the stands, is the explanation of Ruth's failure to hit more than the size of his shoe in the first week as a reinstated Yankee.

His groove, they aver, is a low curve over the inside corner, by the use of which it is alleged our esteemed dugout hurler is made to look like Cy Falkenberg throwing the hammer. The discovery of Ruth's weakness, they say, dates back to the last world's series, when the Giant pitchers fed him with slow curve balls over the inside corner and the Babe waxed exceedingly thin.

Now, it is said, every pitcher in baseball knows the secret and is acting accordingly. No more of these immoderate home run romances for the Babe, say the twirlers.

**Request Is Issued**  
**to Shrine Members**

All Glendale members of the Shrine, who are to attend the ceremonial at Hollywood bowl this coming Saturday, are requested to meet at 4 o'clock that day in front of the Glendale Chamber of Commerce building where plenty of transportation will be provided those who do not have cars.

This will be last meeting of Al Malaikah temple prior to the annual convocation at San Francisco, June 13-14-15, it is stated. There will be 150,000 attending the latter event, it is added, and of this number several thousand will visit the Hawaiian Islands.

**J. B. WRIGHT AT BEACH**

John B. Wright, in the real estate business in 148 South Central avenue, took advantage of the delightful weather over Sunday and devoted the day to pastimes at the beach. Mr. Wright, who has a number of friends at Venice, told of the vast crowd that frequented that resort yesterday.

Saturday was a "wild night" in Glendale! A "hurry up call" was received at 8:25 by the local police department from Los Feliz Road and the Southern Pacific tracks. A collision had occurred between cars driven by A. J. Appleton of 1307 Myra avenue, Hollywood, and William G. Hanson, general manager of the Nick Harris Detective Agency.

SIMPLEST PRACTICAL RECEIVING CIRCUIT

If the natural frequency (or natural wave length) of a receiving antenna were that which would produce resonance with a certain receiving station which was to be received from no series inductance coil or condenser would be necessary. The receiver would respond best to that particular wave length but could not be tuned to other lengths considerably longer or shorter. In a practical circuit it is thus necessary to have at least a variable inductance coil which may be, and frequently is, a simple single slide tuning coil.

In order to make signals audible it is essential to provide a rectifying device and a telephone receiver. The rectifying device may be a galena crystal detector and the telephone receiver should have a resistance of around 2000 to 4000 ohms. One single ear piece is all that is absolutely necessary, but it is quite convenient to have two, particularly if weak signals are to be received. This is because both ears may then be used to hear the sounds produced. The two ear pieces are connected in each has a resistance of 2000 ohms the total resistance is 4000 ohms.

The circuit is shown in the illustration. It makes no difference how the detector and receiver are connected so long as the receivers are in shunt to the detector and the combination is in series with the coil and the antenna-ground system.

Since the crystal detector has high resistance the antenna circuit has high resistance and will tune broadly. That is, signals will be heard from stations that are sending on wave lengths considerably different from that to which the circuit is tuned by means of the coil. A little improvement could

so that it cannot be rusted by the moisture which collects after the head set is worn for some time. The receiver casing or shell is of an insulating compound so that no part of the case is magnetic. The case is not affected by temperature or changes in humidity.  
The total direct current resistance of both receivers (ear pieces) in series is 2,000 ohms. Each magnet coil of each receiver being wound to 500 ohms direct current resistance.  
The headband is of spring wire covered with a heavy brown webbing. The construction makes for comfort. The stirrups are quite springy so that one of the ear pieces may be quickly removed when required. The receiver set may be adjusted to the head and the knurled thumb screws set so that the adjustment cannot accidentally be altered. All exposed metal parts of the head band and the stirrups are nickel plated and the appearance of the whole set is quite pleasing.

## NEW INDUSTRY IS LOCATED HERE; BUILD PLANT

California Rock Products  
Company Opens Offices,  
Erecting Mill

The California Rock Products company, with temporary offices in the Glendale Shops building, have just leased a suite of offices in the Central building on East Broadway.

The California Rock Products company are busy erecting a \$15,000 mill on San Fernando road, one mile east of Brand boulevard, to grind and prepare certain natural colored rock products for the market.

From their green and red rock which is a lava, (natural mineral color), they will grind to sizes suitable for roofing, terrazzo and a fine product to be used in coloring plaster, stucco and cement used in the interior and exterior of buildings.

The white rock which is obtained from the Little Tujunga canyon near San Fernando will be manufactured into roofing and used in floors, but the principal use will be for chicken grit. This product which contains 66.8 per cent calcium (lime) is ideal for this as it contains the lime necessary for the egg shell and just enough magnesia for a tonic as well as the grit necessary to grind the food. One-third of this "lime-stone grit" (trade name) is quickly soluble and two-thirds slowly soluble; just an ideal condition for a food and grinder as the birds eat it continually instead of once twice a week as they do granite grit which contains no food value nor tonic.

Trial among various chicken ranchers has proven this product to be ideal for their use and several large feed dealers are anxious to contract for their entire output. Inquiries have been received by the company from as far as Petaluma.

Another product to be put out by this company is this crystallized white limestone grit in one pound cartons for baby chicks and caged birds. They are preparing to ship this product all over the east as well as locally.

Walter H. Packard, the president, has made Glendale his home and will be in charge of the office here where he is located near the mill and quarry and where he is superintending the construction of buildings and equipment.

G. D. Mason, a resident of Verdugo Woodlands, is the sales manager and several of Glendale business men have already interested themselves in the company. Mr. Packard wishes to mention the help he has received from the Glendale Chamber of Commerce in locating an office and securing the names of feed dealers in Petaluma and throughout the state. Mr. Packard is a member of the Chamber of Commerce and says he has made his selection of a home here and is a booster for Glendale from now on.

## Rev. W. E. Edmonds Speaker at Luncheon

The Rev. W. E. Edmonds, pastor of the First Presbyterian church of Glendale, was the principal speaker at the regular weekly luncheon of the Kiwanis club, held Friday in the Chamber of Commerce auditorium.

Dr. Edmonds presented the right methods to employ in competition and cited trade desire as a part of the necessity for expansion.

D. H. Smith acted as chairman of the meeting and announced that E. O. Kiefer had won the attendance prize, which was presented by H. D. Charlton.

A large attendance was had in spite of the warm weather, due, probably, to the executive session that was held by the president and board of trustees immediately following the general program.

## BACKSLIDERS AND FAKERS SUBJECT OF ADDRESS

Treachery in Great Tragedy  
Used As Sunday Topic  
By Rev. Brooks

"Fakers and Backsliders," was the title of the address given yesterday morning by Rev. Keith L. Brooks of Eagle Rock in the council chamber at the city hall to the Men's Bible class of the Presbyterian church.

"The great tragedy of the ages carried with it the treachery of Judas and the faltering of Peter," he declared. "Judas evidently had the making of a preacher or Christ never would have called him. Yet he went over the precipice. Peter, with all his ups and downs becomes at last a rock and fires the opening guns of the great campaign which is still in progress throughout the world. Judas and Peter were both men of weakness and frailty and both had the same privilege."

"Judas begins his downward career by complaining of the generosity of Mary in bestowing the precious ointment upon Jesus. Be careful about condemning the devotion of others for in heaven's estimate it may be of value. The precious ointment only cost Mary what Judas was soon to receive for betraying his master. The man, who was criticizing the gift, was already thinking of selling his Lord; the woman, who anointed the Lord, was ready to die for Him."

Called Hard Names  
"The Scriptures never teach that Judas was ever a truly committed man. He fell from his official position as an apostle. He is called in the Scriptures an unbeliever, a child of perdition, a devil, a thief and a traitor."

"Let us now turn to Peter and notice his downward steps. He begins with boastfulness. Self-confidence is always the first step away from the Lord. Peter thinks he will never desert his Lord no matter what others may do. He is depending too much upon his own strength. Backsliding has begun when we wish to compare ourselves with others to their detriment."

"Judas was resentful; Peter was boastful. Judas' act was premeditated; Peter's was done without deliberation. Judas did what he intended; Peter did the opposite to what he intended. Judas was filled with remorse; Peter truly repented. Judas hanged himself. Peter found his greatest usefulness after his restoration."

## Glendale Delegates Back From Meeting

Mrs. John Robert White, president of the Glendale Federation of Parent-Teacher Associations, Mrs. E. W. Evans, Mrs. F. G. Hartman, Mrs. E. B. Moore and Mrs. R. C. Horner have returned from San Diego, where they have been attending the state convention of the California Federation of Parent-Teacher associations and the Congress of Mothers. Mrs. White served on the credentials committee and had charge of the names of delegates from this district, the first district from which there were forty-four registered. Mrs. Archibald is president of this district.

Mrs. White states that there were 500 delegates from all over the state in attendance at the convention, which met in the Pacific auditorium, formerly known as the Southern Counties building at the San Diego Exposition, and it was in the balcony of this building that the exhibits from the various departments were on display. She also states that some very fine music was furnished by the high school and grammar school glee clubs. Last Tuesday morning the members of the executive board went to the high school stadium, where, after a drill by the R. O. T. C., Mrs. H. J. Ewing, state president, was presented with the colors.

## AT FUNERAL SERVICES

Mr. and Mrs. George Whitaker and daughter, Miss Ruth Whitaker of the Broadway Pharmacy at Broadway and Kenwood street, Mr. and Mrs. F. S. Whitaker and Mrs. Herbert Ferguson, attended the funeral services at the Methodist church in Monrovia of Vera Berryman, 15-year-old daughter of Mr. and Mrs. George Berryman, cousins of Mr. and Mrs. Whitaker. Miss Berryman was drowned last Thursday at Brookside park.

## REV. C. R. NORTON GIVES MEMORIAL DAY SERMON

Speaker Tells Why People  
Should Pay Tribute to  
Nation's Dead

(Continued from Page 1)  
memory of those noble men!  
"Who were the men who did this battling for us? They were the men from behind the plows, who left the fields unplowed for the fields of conflict. They were carpenters from their unbuild houses; men from their stores who left their goods unsold and went forth to maintain our country's honor; teachers from our schools, young men from our colleges, who left their books and lessons unlearned that they might take part in the maintenance of our glorious liberties; men from professors' chairs; doctors with their breasts to the missiles of care of others; judges from the judicial benches; ministers from their pulpits with the sermons unpreached."

"Without revenge in their hearts toward their brothers of the South but with love of country in their hearts, they went to do and die. They sacrificed the comforts of home and the lucrative businesses of citizen life for the privation and danger of the open field. They went to bare their breasts to the missiles of death, to stand between the flag and the enemy fire. They went with the promise of but little pay. Think of eleven dollars a month as a consideration for such sacrifices!"

Deserve Tribute  
"It is fitting and right that we should with song, prayers and with the choicest of the earth's flowers keep alive the memory of those gone from the ranks of the common soldiery. We should bring the tributes of grateful hearts to our country's altar in memory of our brothers departed in the righteous cause for which they gave up their lives."

"We should keep fresh in our hearts the sacrifice they made for us. We should guard with undying vigilance the interests of the Union with all its sacred institutions for which they suffered and died. We should cherish with sacred veneration the memory of those who fell in defense of the flag—that we are delighted to denominate 'Old Glory.'"

"We should respect with highest veneration the worthy soldiers who are still among us whose ranks are being so fast thinned by the hand of death. We should teach our children the price at which we enjoy these liberties and inculcate into their minds and hearts a veneration for those who stood between us and disunion. They should be taught that patriotism and loyalty to one's country is one of the first duties of citizenship."

## Much More Given Back

"The disciples counted all they had as belonging to the Lord. We give ourselves, including all we may have. But He will give back ten thousand per cent. We look off to the 'last day' for the great blessings, but we have life right now. If you are told Henry Ford will give you ten million dollars ten years hence, it doesn't go very well. But if you are given a check for a million as an earnest of the rest, that is another thing. And that is what we have, the earnest. 'I am the resurrection and the life,' but we haven't trusted Him now for this present gift. We are just to trust Him; every one of us may slip in, the condition is so easy. He said, 'If you believe, you shall see the glory of God.' First believe and then you shall see. Our first problem is not to do something, but to be something."

## C. H. Montgomery Is Made Store Manager

C. H. Montgomery, of 919 East Acacia avenue, who has been a resident of Glendale for some time while employed by the Good-year Tire & Rubber company at their Ascot plant as an inspector, has been named manager for the Automobile Tire Company of California Glendale store at 211 So. Brand boulevard.

Mr. Montgomery already has a large acquaintanceship here and with the big business already built up, expects to sell many more Canton cords, which are guaranteed for 12,000 miles, as well as job lots of other makes. The Automobile Tire company sells for 20 to 30 per cent off list price. It is stated.

E. W. Demarest of Los Angeles, who is vice president of the company, is more than pleased with the volume of business done by the Glendale store and says that it compares favorably with the largest among the chain of ten stores in this state.

## JOE GRIFFIN PROMOTED

Desk Sergeant Joseph V. Griffin of 205 West Acacia avenue has been promoted to the rank of Lieutenant. Announcement of this fact was made this morning by Col. J. D. Fraser, chief of police. The departure of Detective Sergeant G. J. Kincaid of the Central hotel and the appointment of D. L. Fleming as a patrolman were other events this morning.
